## ~ World Fair ~

I enjoyed visiting the booth of Australia and Samoa at the World Fair. I liked the fire knife dance. It was fun. I also liked making the rainbow toast. **(P1 Kacy)**

I enjoyed visiting the booth of Samoa, India and Russia at the World Fair. I liked the Russian dolls because they are very cute. **(P1 Hana)**

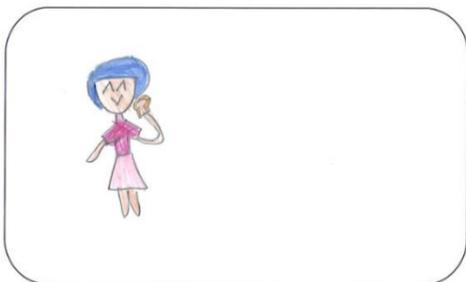

I enjoyed visiting the booth of Australia, Pakistan and the United Kingdom at the World Fair. I liked the rainbow toast. It was tasty. **(P1 Barak)**

I enjoyed visiting the booth of the United Kingdom at the World Fair. I liked the United Kingdom because I got to play rugby. I liked it so much. **(P2 Oasis)**

I enjoyed visiting all the booths at the World Fair including Australia, Samoa, India, Pakistan, the United Kingdom and Russia. I liked the fire knife dance from Samoa because it is so cool. **(P2 Ethan)**

I enjoyed visiting all the countries at the World Fair. I liked the rainbow toast because it was yummy. I also liked the henna painting because it was beautiful. **(P2 Natania)**

Today, I want to share about our school World Fair. First, our teachers gave us a stamp paper and a map before the World Fair began. We were very excited. Our first stop was Russia. We played matching games but sadly we could not even pass the first level. Then, we learned about their traditional doll called the matryoshka doll. There was a doll placed within each doll, and each time, the doll was smaller in size. My favourite was the matching game. I also liked the booth from Samoa because after I watched *Moana*, I really wanted to try the fire tricks, which I finally learned about from watching the fire knife dance. If I have a chance, I would love to go to Samoa to swim. Thanks for reading! **(P3 Giselle Ip)**

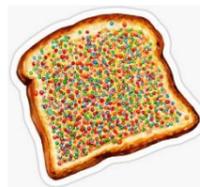

My favourite country booth at the World Fair was Australia because the Vegemite toast and the rainbow toast were very delicious! I learned about the fire knife dance, did henna painting, tasted sweets, and tried traditional clothing and jewellery. I also played with the matryoshka doll and enjoyed the Tetris game. I think it is important to learn about other countries because you can learn about their cultures. I hope to visit the booth of Canada in the next World Fair. **(P3 Joanie)**

Last week was the World Fair. There were six countries. They were Samoa, Australia, the United Kingdom, Russia, India and Pakistan. My favourite country booth was Russia because I could play with puzzles there. I ate sweets at the Pakistan booth and played rugby at the United Kingdom booth. Also, I tried henna painting at the India

booth. I learnt about the fire knife dance at the Samoa booth. It is important to learn about other countries because I can understand different cultures. I want to visit the Portugal booth next time because I want to learn more about football. **(P4 Chan Yin Lai)**

Last week, I went to the Emmanuel World Fair. First, we went to Australia's booth. I tried Vegemite and fairy bread. Second, we went to the United Kingdom's booth. I played rugby there and felt very happy. Third, we went to Pakistan's booth. I tried the traditional clothes from Pakistan. Fourth, we went to India's booth, where I tried to paint henna on my hand. It felt very nice! Fifth, we went to Russia's booth. I tried playing Tetris. At last, we went to Samoa's booth. I tried doing the fire knife dance. I was very excited. I liked Australia's booth the most because I got to try Vegemite toast with fairy bread. **(P4 Kwok Ching Hin)**

My favourite country booth at the World Fair was Australia because we could try the traditional food of Australia -- fairy bread and Vegemite bread. I liked both; they tasted wonderful! We visited different countries' booths: India, Russia, the UK, Australia, and Samoa. We painted henna in India's booth. We played with the matryoshka doll and the Tetris game in Russia's booth. It was hard to play. We tried out rugby and learned some history of rugby in the UK. We tried traditional costumes, jewellery, and sweets in Pakistan's booth. The sweets' flavour was not sweet; it had ginger and cardamom flavour! We learned the fire knife dance in Samoa's booth. The process was fun! It is important to learn about other countries because when we visit them, we can easily communicate if we already know about their culture. I would like to visit Korea's booth at the next World Fair because I want to learn more about Korea's food culture! **(P5 Eve)**

My favourite country booth at the World Fair was India because I liked the henna drawing. The patterns of the henna drawing were very pretty. Besides the

henna drawing, I also tried the fire knife dance and played the Russian Tetris game. I learned a lot about different countries. For example, some Indians eat with their hands. It is important to learn about other countries so we can respect others' traditions. If I have a chance, I would like to visit Pakistan one day! **(P5 Tabitha)**

Today, we went to an event called the World Fair, which was really fun. My group's leader was Vincent. He led us to the first location, which was Samoa. There, we learned the fire knife dance, but there was no fire. The next location was Australia. There, we ate fairy bread and Vegemite bread. When I took the first bite of Vegemite bread, I thought, "Hey! That's not bad!" but then I felt a strong salty taste in my mouth. It was still not as bad as I thought. However, when I tried the fairy bread, it was amazing! At that moment, I wanted to buy the ingredients and make it at home by myself. The next country we went to was the UK. There, we learned a lot about rugby. We tried passing around the rugby ball too. It was really fun. The next country was Pakistan, where we learned about the jewellery and clothing, and we ate a dessert that I didn't like. The second last country was India, where we did henna painting. The last country was Russia, where we played with matryoshka dolls and Tetris. My favourite country was Australia because I really liked the fairy bread! **(P6 Alex)**

Today, the school arranged an event called the "Emmanuel World Fair". They invited teachers from countries around the world. This time, the teachers were from Samoa, Australia, the United Kingdom, Pakistan, India, and Russia. We were split into six groups, each starting at different places. My group started at Samoa, where we tried fire knife dancing. It was really cool! Next, we went to Australia to eat Vegemite and fairy bread. The fairy bread was delicious! Then, we went to the United Kingdom to learn about rugby. It was very interesting! After that, we went to Pakistan to try on traditional outfits and sweets. It was amazing! Next, we went to India to put on some henna. It was wonderful! Finally, we went to Russia to play traditional Tetris and with matryoshka dolls. It was fun! This was a delightful experience. I hope the school will arrange more events in the future. **(P6 Vincent)**

# FLAGS OF COUNTRIES

Label the flags with the country names.

Portugal – Argentina – Germany – Samoa – Egypt – India – Brazil  
 – France – Turkey – Dubai – Mexico – Denmark – The Netherlands

.....

.....

.....

.....

.....

.....

.....

.....

.....

**Answers:**  
 1. Argentina – 2. Portugal – 3. India – 4. Mexico – 5. Turkey –  
 6. The Netherlands – 7. Dubai – 8. Samoa – 9. Brazil

**COUNTRY FUN FACTS**

## FUN FACT CORNER

**AMAZING COUNTRY FACTS!**

**JAPAN'S ROBOT CHEF!**  
 In some restaurants in Japan, friendly ROBOTS help cook and serve delicious food like sushi!

**ITALY'S OLDEST UNIVERSITY!**
