P3 Hayley Tse

My favourite game is Fortnite. I play it on my Switch. It is a Battle Royale game. I like it because I always find some cool guns and I can use V-bucks at the vending machine to get guns. I wish it had free VIP passes and more updates, and also more cars to drive. I always play by myself.

P3 Jerry Lam

My favourite game is Roblox. I play it on my ipad. It is an online game. I love this game because it is an online game, so I can play with people from around the world, and there are so many mini-games. I wish everyone could create 10 games without paying or downloading.

P3 Charlotte Chan

My favourite video game is Zombie Sister. I play the game on my phone. I have to take care of my zombie sister. Every day, I feed her and chat with her. The game teaches us how to take care of our younger brothers and sisters. It is an educational game.

I like the game very much. I wish giving a bath to the sister was added to the game.

P4 Gloria

My favourite video game is Brawl Stars. I play it on my iphone, and sometimes I play with Jasper. It has many modes, such as Gem Grab, Showdown, Big Game, and Boss fight. The Showdown mode is a Battle Royale. I think it's the best because it can be one or two people on a team. I always team up with Jasper and we often win. The game has 24 Heroes. I like this game because I can play with my friend and it's so fun! I wish this game had a hero with an AK47. Also, I want even more modes to play.

P4 Karson

My favourite video game is Let's Go Pikachu. I play this game on my Switch. It is multiplayer and I like it because it's so funny and the Pikachu are so cute. I always play with my mum, dad, sister, and brother. I hope they add even more cute Pikachus, like Christmas Pikachu, baby Pikachu, or Halloween Pikachu. And I wish you could catch the Pikachu on your phone and change to the Switch.

P4 Candace

My favourite video game is Catty Princess. I play it on my phone.

This game is about having too many cats. You can feed your cats and your cats will grow up. Then, you can buy the clothes for your cat, and if you want, you can even get your cat married! I really like this game because... I really like cats! But sometimes, it is too boring, so I want to add some dogs, because I like dogs, too!

P4 Bella

My favourite game is a musical game called Dream Piano, because inside there is some music that I like. For example, Count On Me, and How Far I'll Go. I think Dream Piano is a good game because when it's fast, your fingers need to move very fast or you'll lose the game. The first time I played this game I felt a little bored, but my friends Meredith and Bella liked it too. Now, I think it's fun, but, I wish I could add some other music that I listen to, like Two More Minutes and Do Like A Girl.

P4 Isabella

I mostly play Roblox on Sundays at home. My favourite is Fashion Famous. It's a game inside Roblox, related to designing clothing. I like it because you can pick different hairstyles, clothing, wings, and faces. I often play by myself, but some of my friends also play. I wish it had even more hairstyles, dresses, and accessories, like a cup of water or an ice cream cone. I feel a teeny-weeny bit disappointed if I lose, but I feel delighted if I get 1st place. My sister likes Roblox too, but she likes Royale High. I like it too. It's pretty cool.

P4 Meredith

My favourite video game is Clash Of Clans. I play this game on my phone. It is a Battle Royale game. I like it because it's very funny, and you need to build some houses and weapons, and it has archers, barbarians and giants. It has dragons, too. I think they need to add some tanks.

P4 Nathaniel

My favourite video game is Mario Kart. I play it on Switch. It's a racing game, and it's fun because you need to drive fast. I like this game because I like to play racing games and girly games. I hope they'll put some more characters into it, because I've drawn some characters I like. Also, I want them to put more roads in it.

P5 Abigail

I like to games with cars. My favourite game is Driving School 2017. I always play on my LG-2, Asus, ipad, or PC. I wish they would add more realistic sounds. This game is so much fun.

P5 Cyrus

My favourite video game is Just Dance on the Switch. This game is great exercise! I like it because you can choose different songs and levels to play. I wish the game would let me search for more songs to dance to online.

P5 Ching Yiu

My favourite video game is Fifa '19. I play it on my PS4. This is a sports game, and I like playing it because it's exciting and you can choose many different football teams. Often, I choose FC Barcelona, because they're a good team. If I could add something to the game, I would add some school football teams. That would be very fun and encourage more people to play.

P6 Kaden

My favourite game is Identity V. This game has a hunter and four survivors. There are five rounds. Each round, the survivors have to break the codes. When all the codes are broken, they win. But, if the hunter sends two or more survivors to the 'joyful rocket chair', the hunter wins. I like this game because it's very exciting. I wish the characters could speak in Chinese, though, so I wouldn't need to hear what they say more than once.

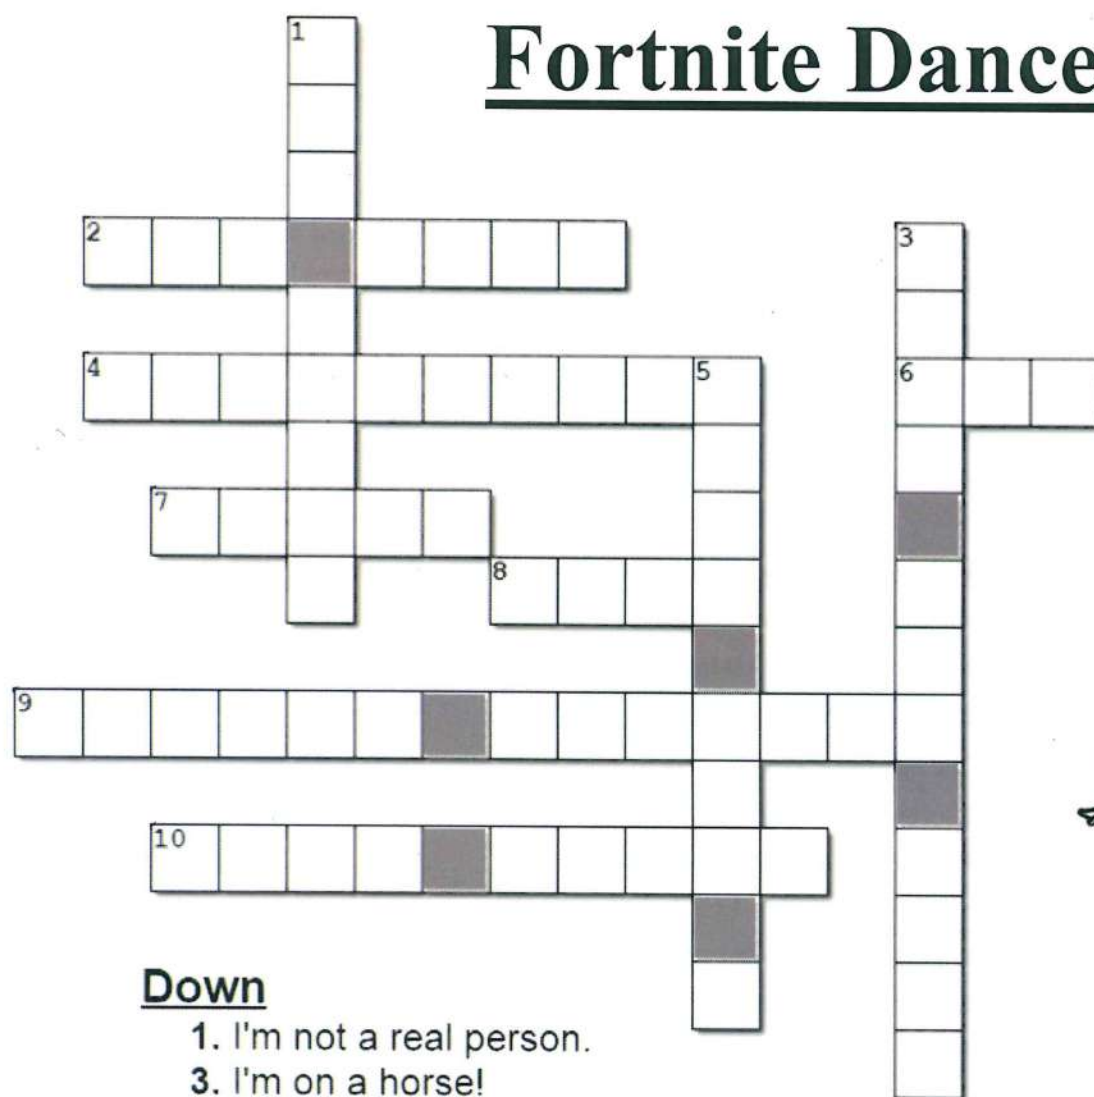

P6 Bella

My favourite video game is Apex Legend. You can play it on PC or PS4 and I play on PC. It's a Battle Royale game by EA. I think it's really exciting and interesting. I have nothing I wish to add in game, but you know...in almost all the Battle Royale games there are a lot of cheaters, so I wish EA would ban all of them.

My favourite game is Casino. It is a card game you can play with two to six people. I play it at home with my family.

At a real casino, people play for money, but at my home we just play for fun.

P6 Chung
