

December 2016, Pokemon Go (& other games) Edition

EPS EXPRESS

My favourite Pokemon is Pikachu, because Pikachu is so cute, and Pikachu has power and a lot of friends.

P1 Fei Fei

My favourite Pokemon is Pidgey. It is yellow and red. It is hairy and winged.

P1 Rain

My favourite Pokemon is Squirtle. It is blue and yellow. It looks like a turtle. It can squirt water. So, it is called Squirtle. So funny!

P1 Daphne

I don't like Pokemon, because they are monsters. But Pikachu, the one which is yellow and fat and has a happy face is cute.

P2 Vian

Charizard is orange and green. It is strong and so big. It can fly and spit fire. It can't drive, swim, or ski.

P2 Hin Hin

My favourite Pokemon is Gyarados. It is a long dragon. It is blue and white in colour. It can fly and swim.

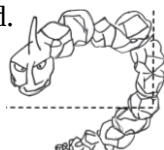

It likes eating Gyarados candies and it is evolved from a Magikarp.

P2 Bowie

My favourite Pokemon is Onix. It is made by combining Iron Head, Rock Slide, and Stone Edge. It looks like a snake. It is gray and black and has a strong body. It also has a horn on its head.

P2 Dick

My favourite Pokemon is Eevee. It's a 'normal type'. It has small eyes, a small nose, a small mouth, and long ears. It's moves are *Growl*, *Swift*, *Bite*, *Refresh*, and *Covet*.

P2 Meredith

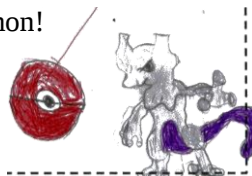

My favourite Pokemon is Floreon. It is a fire type, and it looks like a cat. Its moves are *Ember*, *Fire Blast*, *Flamethrower*, and *Heat Wave*.

P3 Kelly

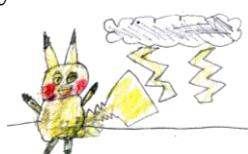

My favourite Pokemon is Mewtwo. It is very strong and special. In Pokemon Go, Mewtwo hasn't been released yet. Mewtwo can use psychic powers to communicate with humans and to fly. It is one amazing Pokemon!

P3 Sebastian

My favourite Pokemon is Pikachu. It is so cute, and it is a strong fighter. It can make electricity, and it is yellow like a banana.

P3 Raymond

My favourite cartoon is Doraemon. He has many magic weapons. He is blue and white in colour and he has a yellow bell. He is a mechanical cat.

P4 Him Yiu

I like Mew because it is cute. It's full of XP (experience points). Mew has strong powers. When the world is in danger, Mew can rescue it. Mew can be upgraded to 'Mewtwo' by copying its DNA, but I don't like Mewtwo, because it looks evil.

P4 Ching-Ching

My favourite Pokemon is Kyogre because it can channel the full power of nature. It can raise sea levels and create mighty storms. Its possible moves are *Water*, *Pulse*, *Scary Face*, *Body Slam*, *Muddy Water*, *Aqua Ring*, *Lee Beam*, *Spout*, and *Ancient Power*.

P4 Netis

My favourite Pokemon is Machop. It is a fighting Pokemon, so it has strong muscles. It looks like a dinosaur, and it is blue and has two big reg eyes.

P4 Morrie

My favourite Pokemon is Snorlax, because when he jumps, the ground will crack! I think he looks like a fat, round cat, but he is blue and white. He is cute, but he is a fifth level creature, so his power is really great.

P4 Bella Chan

My favourite Pokemon is Charmander. He's a fire type, and he is the best starter Pokemon in the game world. Charmander evolves into Charmeleon and Charmeleon evolves into Charizard. Charizard is so cool!

Charmander in Pokemon Go is in fourth position. It is so rare.

I think what's good about Pokemon Go, is that you can do so much exercise when you play. But the bad thing about it is that some people won't look before crossing the road, or when they can see a rare Pokemon.

P5 Clovis

In Pokemon Go, my favourite Pokemon is Dragonite. It is very strong and I have three in my phone.

I think Pokemon Go is a good game because you must walk to find Pokemon. But this game also might be dangerous, You can get addicted and a get hit by a car because you are always playing.

I like Pokemon very much and I like watching the cartoon, too.

Now, I have five Electabuzz, two Charizard, three Raichu, four Lapras, six Aerodactyl, three Gengar, one Gyarados, one Blastoise, and one Venusaur. I'm level 20 and I hope I can play today, but mum said, "You must not play Pokemon Go!"

P5 Adriel

I play Pokemon Go in my free time. The game is from a company in Japan. I think the game is fun because we can play while walking. (But stay aware of your surroundings.) I think people can share about which Pokemon they have, and there's nothing really bad about the game. I also like watching the cartoon. There are different Pokeballs in it, like the master balls, ultra balls, and great balls. Some are not in the game yet, but they might be in the game when a new update comes out.

P5 Marco

I think Minecraft is a good game for kids to play. Minecraft is not just about playing a game; you need to develop the skills to play. You need to use your brain to play. It's creative. You can build whatever you want in creative mode. The monsters won't attack you, but you will need to get all the things to build your own special house.

In survival mode there are monsters to attack. There are also some levels of danger: peaceful, easy, middle, and difficult. You can still build things, but you need to find the materials on your own. You must make swords to protect yourself. You have to get vegetables from the dirt. You also need to find gold, diamonds, and iron to craft many other things.

Minecraft is a fantastic game, but you need good time management skills to play games and live happily.

P6 Elaine

Nowadays, I see a lot of people bringing their phones wherever they go. Even six-year-olds have phones! And not any out-of-date phone, either. More like the newest, trendiest i-phones we can get our hands on! Phones are practically a part of life that cannot be removed.

Online games: What is so fascinating about them, anyway? Most people say it's exciting to try to win the game. Excuse me? Most of the games, in fact, are rigged to get harder and harder. (Never ending!) Also, when you download the games, if you don't look carefully at the required information, you could either:

- A) suddenly get a lot of emails,
- B) buy a lot of things accidentally, or
- C) leak personal/private information.

Moreover, looking at the screen for a long period could make your eyesight go bad. Although I don't like online games, I like online bookstores. There's always a bargain or sale on hardcover or paperback. It helps me save a lot of money! It's only about \$63-\$100 per book! Also, I can buy books I can't find in Hong Kong, and the company will ship them to me – no transportation fee needed!

All the same, it's best if you don't use phones, computers or laptops too much.

P6 Rachel

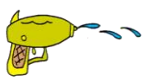

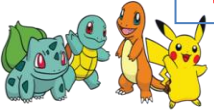

And Finally a picture by...

Asher Lee

Do the Math to find Out Which Words Each Pokemon is Made From

(Example: 1 + 2 = 3 so... Pocket + Monster = Pokemon)

 4 Charcoal	 1 Pocket		 2 Monster	 10 Dinosaur		 9 Squirtle	 7 Charmander
 11 Flower bulbs	 8 Squirt gun	+	 1 Turtle	 14 Relaxed	=	 16 Pikachu	 3 Pokemon
 22 Snoring	 12 Shiny/electric in Japanese		 3 Salamander	 4 Sound a mouse makes in Japanese		 21 Bulbasaur	 36 Snorlax

4 + 3 = 7, 11 + 10 = 21, 22 + 14 = 36, 1 + 2 = 3, 8 + 1 = 9, 12 + 4 = 16
 Answer key:

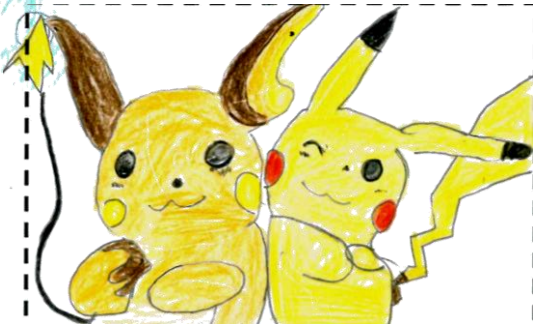

Pokemon Tips!

- 1) Squirtle is easier to find by the water.
- 2) You can get Pikachu at the start of the game if you walk away three times without choosing another Pokemon as your starter!
