May 2015, Cool Gadget Edition

I want to borrow the “take-copter” from Doraemon. It is like a hat. I can wear it on my head. Then, when I turn it on, I will fly. I want to borrow the “love arrow” from Doraemon too. It is like a heart. I can shoot the arrow. Then, the people I shoot will love me.

P1 Lazlo

I want to borrow the time machine from Doraemon. It can travel through time. I can go back to the time when I was a baby with the time machine. I will be so happy.

P1 Ryan

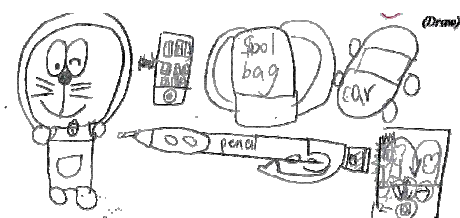

If I can get one Doraemon item, I want to have a new blue school bag.

I can put some books, a pencil-case and a water bottle in it.

I have wanted to have it for a long time, but mum said I have to wait until June.

I will use it for school every day. If I get it now, I will be very happy. It is nice and cool!

P2 Lisa

I want to borrow Doraemon’s memory bread. It looks like normal bread that we buy in the bakery. It is made of red beans because Doraemon likes them best! You have to put the bread on the book you want to remember and eat it. Then you will know everything in the book.

I can use it in a test or exam. I will get full marks every time!

(But I know it is a crazy dream. I must work hard myself.)

P2 Valerie

I want to borrow an ‘anywhere door’ from Doraemon, because I like to go to school on time every day, but my brother always makes me late. If I used it in the morning, I could go to school myself without waiting for him. My teachers would say that I am a good student.

P3 Cassandra

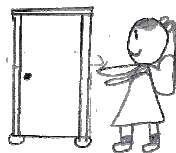

If I can borrow one gadget from Doraemon, I want the ‘anywhere door’.

It looks like a normal door, but when I want to go somewhere, I can open the door and walk through it.

I will use it for travelling abroad. I don’t need to go by aeroplane, and it can save me a lot of time and money.

P3 Agnes

I would like to borrow a time machine from Doraemon, because I miss my grandfather. He died five years ago. He loved me so much. I would stop the accident from happening if I had a time machine.

P4 Edison

If I could borrow a gadget from Doraemon, I would like to borrow the ‘anywhere door’. It would let me go anywhere, so I could go to the bank and get some money, and no one would know what happened!

P4 Rocky

If I could borrow one gadget from Doraemon, I would like to have the ‘translation gummy’. When you eat it, you can speak any language and talk with anyone! I want to borrow it because I want to know many languages. Now, I want to learn French, most of all! I could make many new friends. I wish I could have this gadget!

P4 Elaine

If I could borrow one gadget from Doraemon, I would choose the ‘Separation Knife’. It looks just like a normal knife we use at home, but if we cut an object or person into two, the separated parts can be put back together! If I could cut myself in two, I could do more than one thing at the same time. I would use the Separation Knife to have two bodies, and do homework and play computer games at the same time.

P4 Benson

I like Doraemon very much because he has a lot of gadgets. If I could borrow just one, I want to have the time machine. It can travel through time and take me into the future or back into the past. It looks like a mini car with a seat and a control panel. There is a lamp at the right hand corner. When someone sits on it, it can fly. I want to borrow it because I want to know the future so I can make predictions and become the Mark Six winner.

I would use the money to help the victims of disasters and the poor. If I had it, I would be a hero like Robin Hood!

P5 Isabella

When I was young, I wanted to borrow the ‘devil’s passport’ from Doraemon, because it lets you get away with anything you like.

If I had it, I could take a taxi without paying anything. I only need to show the passport. I would also use it during my test. I could look at my classmate’s test paper, then, when the teacher says “Hiu Lam! What are you doing?!” I would show the passport and my teacher would say, “Okay, you can continue.” I think this passport is useful for us students.

P5 Hiu Lam

If I could borrow one gadget from Doraemon, I would like to borrow the ‘Cuisine Table Cloth’.

It is a white rectangular table cloth with orange lace. The cloth can provide any quality cuisine you want by placing it on the table and speaking your order loudly. I want it because it is magic, and can satisfy my desire for savory food. I would share the food with my friends and especially recommend the hamburger beef-rice.

P5 Isaac

If I could borrow one gadget from Doraemon, I want the imitation dummy. It looks like a human sized white doll, and it is very magical. It can turn into anyone you want it to be. For example, it turns fat if you want it to be someone fat. It can change into any shape and size.

I want to use it, because if I don’t want to go to school, I can turn the dummy into a copy of me and make it go to school while I stay at home. It is such a useful gadget!

P6 Gabriel

If I could borrow a gadget from Doraemon, I would borrow the imitation dummy. It looks like another you; it will multiply anyone! I’d like to borrow it so I can do multiple things at the same time. I will use it to create my one and only, Ivan’s Army! I will make a city with only my dummies in it, and I will be the King of the town. I can even fight some wars with other countries. I will have to borrow a ton of dummies to make my city stronger and more powerful.

But, Doraemon is just a cartoon character. If we really want these gadgets, we’ll have to make them ourselves.

P6 Ivan

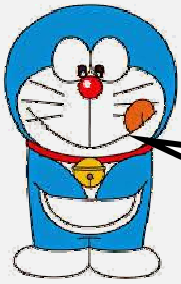

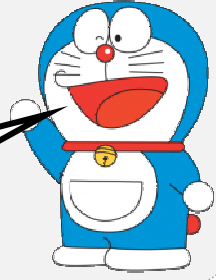

Imagine you are Doraemon: Give the children a gadget to help them!

Doraemon! I want to fly to the moon!

Okay! Here, use this _____.

Doraemon! I ate too much! I feel sick!

Okay! Here, use this _____.

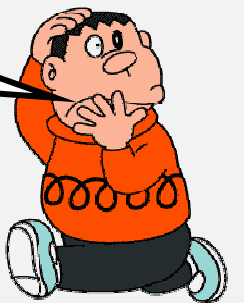

Doraemon! I want to visit the USA!!

Okay! Here, use this _____.

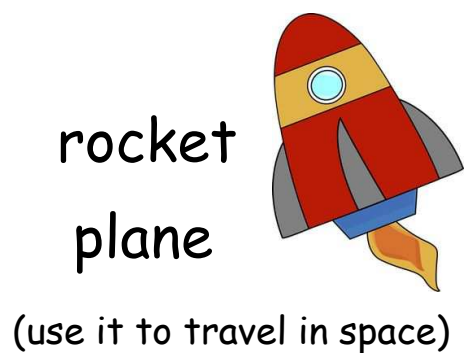

I want to sing, but everyone runs away!

Okay! Here, use this _____.
