~ Favourite Hobby ~

My favourite hobby is roller skating. I go roller skating with my family because it makes me feel fast. **(P1 Haimi)**

My favourite hobby is playing basketball. I play basketball with my family because I want to be a basketball player someday. **(P1 Jayden)**

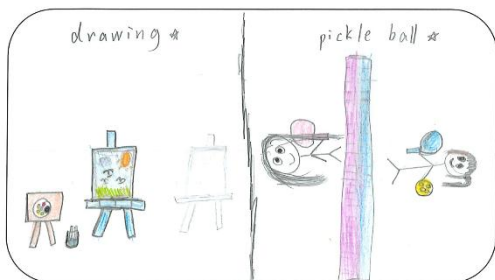

My hobbies are running and drawing. I run with my friends and I draw by myself. I like these hobbies because they are fun. **(P1 Kacy)**

My favourite hobby is learning Japanese. I learn Japanese with my brother's friend's mum. I like it because I can go to Japan if I know how to speak Japanese. **(P2 Natania)**

My favourite hobby is running. I run with my family. I like running because I like the feeling after I run. I feel very relaxed. **(P2 Oasis)**

My favourite hobbies are drawing and playing pickleball. I always draw and play pickleball with my friends. I like drawing and playing pickleball because it is so fun. **(P2 Ellie)**

My favourite hobby is cosplaying anime characters. I love watching anime especially "Demon Slayer". I usually cosplay by myself when no one is around. I have learned to make my own clothes and props. I think this is the most challenging part because I need to get the right materials. Sometimes I order it from "Tao Bao" and make it by myself. I would like to try cosplay other anime. **(P3 Giselle Ip)**

My favourite hobby is learning Japanese because my mother always goes to Japan. I want to help her order our meals in Japan, so my favourite hobby is learning Japanese. I learn it with my friends. I learned to order meals in Japanese restaurants. The hardest part is the writing part, I do more exercises to handle it.

I would like to try learning pickleball because I heard pickleball is a mix of tennis, badminton and ping pong ball. **(P3 Yiu Yiu)**

My favourite hobby is playing badminton. It is because I saw some athletes on the TV and I think they were very cool.

I always play badminton with my family members such my mother and sister, during the weekend.

The most challenging part of playing badminton is the hot weather. I practise playing badminton under the sun. I get tired but I drink a cup of cold water and then keep going.

I would like to try to play football next time because of the FIFA World Cup. It looks interesting. I would also like to watch the different teams play football. **(P4 Kit San)**

My favourite hobby is playing football. I am interested in shooting because I want to use power and I think it is fun. My father plays football with me. I learned team work from this hobby. The most challenging part of this hobby for me is passing. I practise so hard for it!

I would try passing next time because it is so much fun! **(P4 Chan Yin Lai)**

My favourite hobby is playing the piano. I started playing it when I was ten years old. I found that I can play the piano on my own and remember every single note of the songs. I feel proud of myself when I play the piano in front of my family. Lately, I do not have enough time to practise playing the piano because I need to study hard.

I wish I can learn other musical instruments someday. **(P5 Hannah)**

Everyone has a favourite hobby, can you guess mine? My favourite hobby is playing rugby.

I love playing rugby with my teammates and my good friends, Eve and Elma. I have played rugby for three years. The reason why I started playing rugby was because my mum told me this sport is close to a "catch" game. I love playing catch so I immediately joined rugby. It turned out to be really fun and exciting. I think the most challenging part is communicating with your team. On the gigantic field, you must tell your team

what you want to do. That is very hard. They may be daydreaming or might not understand what you are trying to explain.

However, I think my team spirit and skills have improved. We trained hard continuously so we know each player's next move. I also run faster than before.

If there is time, I would like to try ice skating because I want to elegantly glide on ice. **(P5 Hailey)**

Listening to music is my favourite hobby. I became interested in it when my mum played soft songs for me after school. I usually listen to music alone with my headphones. I have learnt many English words from pop songs and feel relaxed after busy school days.

The hardest part is choosing songs when I feel upset. I pick gentle melodies to cheer myself up. Next, I want to try learning the guitar so I can play my favourite music myself. **(P6 Hidi)**

My favourite hobby is drawing. I got interested in it when I watched an animation and wanted to draw the characters. I always draw alone because I enjoy the quiet time. I have learned to make my characters look funny using big eyes and small mouths.

The hardest part is drawing the body in different poses. I handle it by using stick figures first. Next, I want to try drawing a comic strip with my own characters because it tells a story. **(P6 Sherice)**

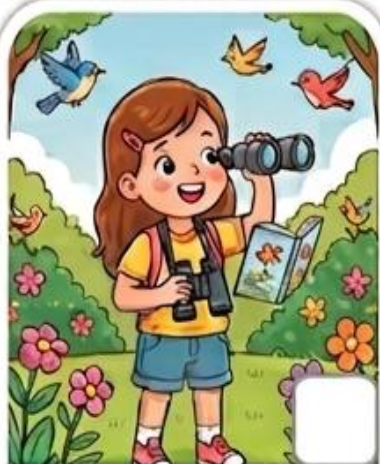

My favourite hobby is roller skating. It makes me feel free and excited as I speed up. I often skate with my neighbour who is a six-year-old girl. In the beginning, I was scared to skate on my own. I did not give up and kept trying and trying. Now, I love roller skating very much.

I learnt that nothing is impossible. It depends on whether you want to do it or not. My next challenge is driving a car, but I need to wait for some time. **(P6 Schapelle)**
